## Support for Development Districts under LB318

LB318 has been introduced by Senator John Kuehn of District 38. As many of you know, Development Districts provide services to counties, cities and villages for access to many state and federal programs, along with other local activities. Professional staff are regularly attending those Board and Council meetings to gain firsthand knowledge of community needs as well as the effectiveness of the programs. District staff work with the numerous the counties and communities and state and federal agencies in planning, developing proposals, preparing grant applications and administering programs.

The proposed legislation will provide for \$500,000 in funding for each of the next two years to create a partnership with the Nebraska Department of Economic Development (NDED) that would be mutually beneficial and to best meet needs on Nebraska.
