 John Miller – Oxbow Animal Health

Information on Community & Business Spotlight Presenters:

Robin’s Pantry: Food from the Heart! Robin believes that you can experience great food when it is prepared from the heart. Robin works with the local establishment Art Chicks in Louisville to prepare food for events held at the facility but to also have her catering business.

Riverfront Development: Situated at the confluence of the Missouri and Platte rivers, Plattsmouth knows the challenges and opportunities to being a river community. City Administrator Erv Portis and the Plattsmouth City Council have been working hard to continue riverfront development that will benefit the community and its thriving Main Street.

Oxbow Animal Health: The story of Oxbow Animal Health has its humble beginnings over five generations ago on the Miller family farm. During this time, hay was the lifeblood from which they grew and nurtured their animals. It was important that every harvest meet the absolute highest standards. Thus began the Oxbow commitment to developing the very best in animal care products, a tradition that carried on five generations later when John Miller founded Oxbow Animal Health. By making sure this belief formed the foundation of Oxbow, Miller has created an internationally-recognized brand that has become the most trusted name in small animal nutrition, from loyal customers to top veterinarians.
